PRIMETILE TECHNICAL SERVICES CO LLC

2025

we bring together focused expertise and technical skill to meet the demands of complex construction and fit-out projects.

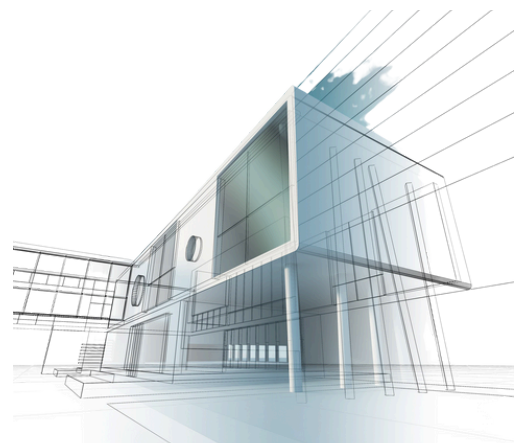

About Company

Established in 2024, Primetile Technical Services Co. L.L.C is a specialized technical contracting company focused on precision tiling, HVAC systems, plumbing, and woodwork. Operating under the Prime Group of Company, Primetile delivers streamlined solutions for modern construction, renovation, and maintenance projects across the UAE.

Our core philosophy is built around quality craftsmanship, technical accuracy, and timely delivery. Backed by a skilled team and advanced tools, we handle a wide range of projects from residential villas to large-scale commercial developments with unmatched efficiency.

With every project we undertake, we strive to set new standards in workmanship and client satisfaction. Whether it's a single-unit tiling job or a full-scope HVAC and flooring contract, we approach each assignment with professionalism, transparency, and a drive to exceed expectations. As we grow, our focus remains on building long-term partnerships rooted in trust, value, and performance.

Welcome Message

At Primetile, we believe in the power of focus. Our company was established with the vision of providing specialized solutions in areas that demand perfection — tiling, HVAC, plumbing, and carpentry. Every member of our team is trained not just to do the job, but to do it right.

As a new and growing company within the Prime Group, our mission is to build a reputation rooted in quality, transparency, and trust. We are here to make a mark through reliability, speed, and skilled execution.

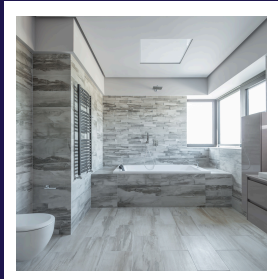

At Primetile, we believe in the power of focus. Our company was established with the vision of providing specialized solutions in areas that demand perfection — tiling, HVAC, plumbing, and carpentry. Every member of our team is trained not just to do the job, but to do it right.

CEO

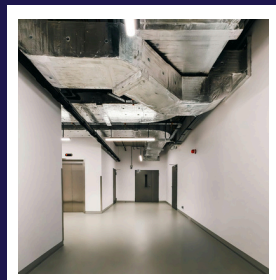

Our Services

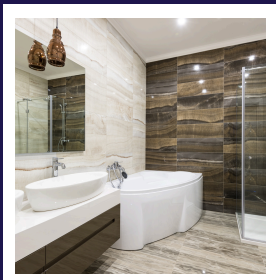

Floor & Wall Tiling Works

Expert installation of ceramic, porcelain, marble, and stone tiles for both indoor and outdoor spaces.

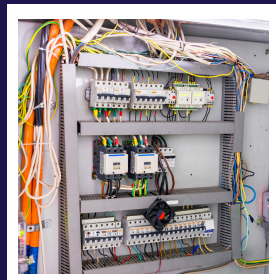

HVAC Systems Installation & Maintenance

Complete air-conditioning and ventilation solutions, including ducting, unit installation, and regular servicing.

Plumbing & Sanitary Installation

Reliable installation of sanitary systems, water pipelines, and plumbing fixtures with high attention to safety and standards.

Electromechanical Equipment Installation

Seamless setup and integration of MEP systems in accordance with UAE building codes and project requirements.

Carpentry & Wood Flooring Works

Specialized flooring and interior woodwork, including parquet, engineered wood, and hardwood solutions.

Our Notable Projects

Our experience includes successful delivery in both private and contractor-led developments:

Sobha Meydan – Dubai

Tile installation for luxury residential units across multiple buildings.

Al Badiya Zone 6 – Abu Dhabi

Complete tile works for mid-rise buildings and commercial units in a government zone development.

Why Chose Us?

Specialized Expertise

We focus on what we do best — tiling, HVAC, plumbing, and wood flooring. Our team is trained to deliver with technical precision and industry-approved standards.

Quality First Approach

Every material we use and every method we follow is aimed at delivering long-lasting results. We never compromise on quality, whether the project is large or small.

On-Time Delivery

Our workflow is designed to meet deadlines without compromising execution quality. We understand how important time is in construction, and we deliver accordingly.

Transparent Communication

From site planning to handover, we maintain clear and regular communication with our clients, ensuring there are no surprises—only results.

Reliable Support

As a part of the Prime Group of Company, we bring the added assurance of reliability, scalability, and ongoing support to every client we serve.
